For Immediate Release

Free Wills for Wisconsin Teachers

For the past three years the team at Tabak Law, LLC has demonstrated our commitment to our communities by providing free basic estate plans to veterans, whether clients of Tabak Law or not, through our Wills for Veterans program. These estate plans include a basic will, health care power of attorney, living will, and financial power of attorney. We have provided hundreds of veterans with this free service saving them thousands of dollars in legal fees.

Because of the uncertain times and the challenges our community has ahead of it, we are opening this program to area teachers through September 30, 2020, while still providing this service to veterans. As our schools reopen and children are getting back together with their classmates and teachers that they have missed so dearly, Tabak Law, LLC would like to provide Wisconsin teachers the peace of mind that comes with having these documents in order.

This program is absolutely free and there are no strings attached. For more information please call 414-600-8067 or email info@tabakattorneys.com.
